The national apology to Indigenous Australia

On 13th February 2008 The Australian government took the long overdue step of apologising to the 'stolen generation' of Aborigines. The 'stolen generation' refers to the thousands of Aboriginal children who were forcibly removed from their parents and adopted by white families. Babies, toddlers and youngsters were forcibly removed from their mothers and fathers and sent to missions or adopted by white families. The idea was to breed out the Aboriginal colour. This policy of integrating mixed-race children into white society started in 1910 and only ended in 1969. Nearly forty years after it ended, newly-elected Prime Minister Kevin Rudd made the formal apology in a parliament address on February 13, 2008 (excerpt only - For the full text of the Prime Minister's apology see http://www.aph.gov.au/house/Rudd_Speech.pdf).

"Today we honour the Indigenous peoples of this land, the oldest continuing cultures in human history.

We reflect on their past mistreatment.

We reflect in particular on the mistreatment of those who were stolen generations - this blemished chapter in our nation's history.

The time has now come for the nation to turn a new page in Australia's history by righting the wrongs of the past and so moving forward with confidence to the future.

We apologise for the laws and policies of successive Parliaments and governments that have inflicted profound grief, suffering and loss on these our fellow Australians.

We apologise especially for the removal of Aboriginal and Torres Strait Islander children from their families, their communities and their country.

For the pain, suffering and hurt of these stolen generations, their descendants and for their families left behind, we say sorry.

To the mothers and the fathers, the brothers and the sisters, for the breaking up of families and communities, we say sorry.

And for the indignity and degradation thus inflicted on a proud people and a proud culture, we say sorry....."

Christine King from the Stolen Generations Alliance said February 13 was an extremely significant and emotional day. She said "Older people thought they would never live to see it, so it's very important."

Advanced Activities

<u>Further discussions:</u> Some people believe that all indigenous populations should receive apologies from colonisers; others believe that today's governments should not have to apologise for the wrongs of previous generations. What is your opinion?

Phrases:

In <u>grammar</u>, a **phrase** is a group of <u>words</u> that functions as a single unit in the <u>syntax</u> of a <u>sentence</u>. For example *the house at the end of the street* is a phrase. It acts like a noun. It contains the phrase *at the end of the street*, a prepositional phrase which acts like an adjective. Most phrases have a central word which defines the type of phrase. This word is called the <u>head</u> of the phrase. It is often the first word of the phrase. Phrases may be classified by the type of head they take, for example:

- Prepositional phrase with a preposition as head (e.g. in love, over the rainbow)
- Noun phrase with a noun as head (e.g. the black cat, a cat on the mat)
- Verb phrase with a verb as head (e.g. eat cheese, jump up and down)
- Adjectival phrase with an adjective as head (e.g. full of toys)
- Adverbial phrase with adverb as head (e.g. very carefully)
