Microsoft Family Safety Setup

Setting up content filtering checklist

The Smith Family
Learn today, change tomorrow.

This checklist guides you through the steps to set up content filtering for your child's account.

🔴 **A panel or page** 🟢 **Click the button** 🔵 **Input the info**

☐ Step 1	Log in to your account on the **Microsoft Family Safety portal**. (family.microsoft.com)
☐ Step 2	On the **Your family page**, click on the **child's account** you want to set restrictions for. Your family You Oliver +
☐ Step 3	Click the **Content filters** option on the left-hand side.

Step 4 Set up the function you want to use, under the **Web and search tab**:

☐	To block a previously visited website	Find the **Websites section**, click the **three dots** next to the website, and select **Block site**.
☐	To block inappropriate websites and searches	Find the **Filter settings section** and turn the **Filter inappropriate websites and searches toggle** on. Filter settings Filter inappropriate websites and searches On Protect Oliver from mature content on the web and enable SafeSearch with Bing. When turned on, this setting will block other browsers and only allow Microsoft Edge.
☐	To only use allowed website	Find the **Filter settings section**, turn on the **Only use allowed websites toggle**. However, this function is very restrictive and not recommended. Only use allowed websites Off Oliver will only be able to visit websites that you've allowed. Anything else, and they'll need your permission first.
☐	To block a specific site	Find the **Filter settings section**, under **Blocked sites**. Click the **+ icon** to add the **website** you want to block. Blocked sites Add a website
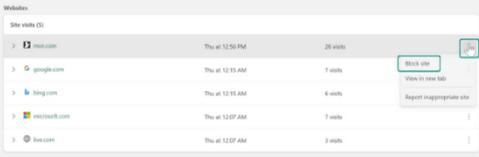

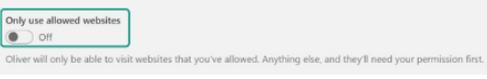

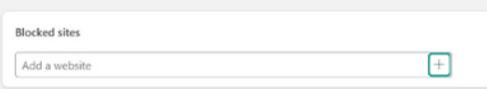

You've now set up the screen time limits for the chosen family member on the selected device.
